

## 5G Rezotone USB KEY Description

The 5G Rezotone USB KEY is the result of the most advanced worldwide technology currently available, related to, but not limited to, neutralizing the devastating effects caused by nonnatural electromagnetic waves, particularly (but not limited to) 5G, for biological organisms, as much of human, animal and plant nature.

Resulting from a Russian research of several decades, the 5G RezotoneUSB KEY makes it possible, thanks to a process of quantum oscillation, to neutralize and re-harmonize the disturbing frequencies arising from the electro-magnetic fog induced by all devices made by human beings, such as laptops, cordless phones, wlan, tablets, etc.

It restores the coherence of the geometry of the atoms, which allows a perfect induction for life forces, by (re-) creating a cardiac coherence, via plasmoidic support and in an interactive way.

## Fields of Application

- a) Neutralization and revitalization of electromagnetic fields from unnatural sources, such as laptops, cordless telephones, wlan, tablets, etc.
- b) Neutralization of the geo-biological disturbances of the habitat and surroundings (Hartmann, Curry, Palm, Peyré, Wissmann), including underground water sources.
- c) Revitalization of biological organisms, such as animal, plant and/or human, including faster and easier recovery.
- d) Harmonization of the interiors of cars, tractors, trains and aircraft, (Faraday cage), allowing notably reduced consumption of gasoline for an equivalent distance.
- e) Psycho-emotional harmonization, in particular to ease meditations, but also to take a step back from the stressful challenges of everyday life.
- f) Improvement of memory, concentration, speed and efficiency of decisions, especially for pilots, surgeons, teachers, etc.

## Activation and Use

- a) Place the 5G Rezotone USB KEY in an electric charger: A red light of varying intensity will be emitted by the Key, demonstrating its proper functioning. In this configuration, the span of the Key is 40 m<sup>2</sup>, and all disturbances, both electromagnetic and geo-biological, are converted into resonance fields inducing, by meta-conversion, vital frequencies for all biological organism of any kind.
- b) Wear the 5G Rezotone USB KEY on yourself, without activation by an electric charger: In this configuration, it is the energy field of the user himself (named Human Body Field or HBF) that activates the Key. In such a case, the active range of the Key is 1.5m (= 3m in diameter), and allows the creation of a protective bubble when the user moves on the street or elsewhere than at home.
- c) Placement of the 5G Rezotone USB KEYS in square according to the cardinal points: Concurrent studies have shown maximum effectiveness when 4 5G Rezotone USB KEYS are placed in a square at a maximum of 10 meters apart, inside a habitat and located at each cardinal point (N; S; E; W).

## **Duration of life**

Current studies have demonstrated a minimum service life of 9 years, as long as the Key is not exposed to extreme heat or cold conditions, which could affect the quality or function of its components.

## **Overdose**

No overdose is possible even if the 5G Rezotone USB KEY remains permanently activated.

Indeed, the Key emits a large number of life force frequencies favouring a general revitalization of the body, adjusting them according to the absorption capacity of each person.

As a result, the frequencies transmitted by the Key are only absorbed by the user's body if the user needs it.

Thus, the effects of the 5G Rezotone USB KEY may vary from one user to another, but it will inexorably lead to a higher energy and well-being state at all levels over time.

## **Time needed for the effects to manifest**

These onset times depend on the sensitivity of the users, as well as the degree of repair their organisms need.

Tests based on cardiac variability have shown noticeable effects after a quarter of an hour already, once the Key is activated.

Some users immediately feel the effects, in the form of calm, harmony and serenity suddenly (re-) found.

Other users, more physically impaired, will have to wait several days or even weeks for the body's revitalization mechanisms to be fully effective.

Therefore, patience and perseverance are recommended to everyone in order to benefit maximally from the multiple effects generated by the 5G Rezotone USB KEY.

## **Warranty**

The 5G Rezotone USB KEY is guaranteed for 1 (one) years.

## **Disclaimer**

This device is not intended to diagnose, treat, cure, or prevent any specific disease.

The information in this leaflet is meant as a general guide.

If you have any medical problems please refer to your health practitioner.
